MANUAL OF CONTRACT DOCUMENTS FOR HIGHWAY WORKS
A BRIEF DESCRIPTION OF NOVEMBER 2008 AMENDMENTS
VOLUME 2

DOCUMENT	DESCRIPTION
Volume 2	**Notes for Guidance on the Specification for Highway Works (MCHW 2)**
General	The user's attention is drawn to the following note which has been abstracted from Implementing Standard SD 26/08: "Contracts for which tenders are to be invited after 1 May 2009 shall incorporate by reference the amendments implemented by this Standard, except where the preparation of a contract has reached a stage at which in the opinion of the Overseeing Organisation use of the amendments would result in significant additional expense or delay progress." The user's attention is drawn to GD 03/08 (DMRB 0.2.2) Implementation and Use of the Standards Improvement System. This Standard superseded HD 34/03 which introduced the Standards Improvement System (SIS). SIS is a computerised database of reports generated from failures of specifications and design standards and other observations on these documents. The database records potential improvements using lists of components, symptoms, diagnoses and detailed descriptions. SIS is operated and maintained by the Highways Agency. Its prime objective is to improve the performance of the engineering standards and specifications published by the Highways Agency, both independently and jointly with other Overseeing Organisations. **Feedback Arrangement** To provide feedback on the Highways Agency's standards and specifications, please use this link: **http://www.highways-net.co.uk/information/dmrbaccess.asp**
