SECTION 3 ADVICE NOTES

PART 1

**SA 1/08 AMENDMENT NO. 2 –
NOVEMBER 2009**

**LISTS OF COMPLIANT/APPROVED/
REGISTERED PRODUCTS**

SUMMARY

This document lists products which comply with the Traffic Signs Regulations and General Directions (TSRGD) 2002, direction 57 or have obtained Statutory Type Approval, Type Approval and Registration in order that they can be used on the Highways Agency's road network.

INSTRUCTIONS FOR USE

1. Insert replacement pages listed on the Amendment Sheet (Amendment No. 2 – November 2009).
2. Remove the corresponding existing pages, which are superseded by this amendment and archive as appropriate.
3. Enter details of Amendment No. 2 dated November 2009 on the Registration of Amendments Sheet, sign and date to confirm that the amendment has been incorporated.
4. Archive this sheet as appropriate.

Note: A quarterly index with a full set of Volume Contents Pages is available separately from The Stationery Office Ltd.

WITHHDRAWN

1. INTRODUCTION

1.1 The Specification for Highway Works (SHW), which forms Volume 1 of the Manual of Contract Documents for Highway Works (MCHW 1), requires certain work, goods or materials (products) that are subject to Regulation, Statutory Type Approval, Type Approval or Registration before they can be used on the Highways Agency's road network. Annex A of SD 1 (MCHW 0.2.1) lists such products.

1.2 Statutory Type Approval referred to above is granted by the Secretary of State for the Overseeing Organisation while Type Approval/Registration is granted by the Overseeing Organisations. This Advice Note lists products which are:

- a) retroreflecting road studs (see Annex A) incorporating reflectors (but no light source) as described in and compliant with direction 57 of TSRGD 2002 (in Northern Ireland Type Approval applies in place of Statutory Type Approval);
- b) road studs (see Annex B) incorporating a steady or intermittent light source as described in direction 57(2) or (3) and compliant with direction 57/5 and direction 58 of TSRGD 2002;
- c) products that have Type Approval (Annex C); and
- d) products that have been registered (Annex D).

1.3 This Advice Note supersedes SA 1/07 which is hereby withdrawn.

1.4 Statutory Type Approvals as listed in Annex B and issued by the Secretary of State apply to England only. Scotland, Wales and the Department for Regional Development (Northern Ireland) issue their own Statutory Type Approvals. Unless otherwise indicated in the lists at Annexes C and D, Type Approval/Registration granted by the Highways Agency as the Overseeing Organisation is valid throughout the UK.

1.5 It should be noted that the approval/registration of some products is subject to limitations on use. Where applicable these are stated in the lists. Such limitations are additional to any given in the SHW. When products are used in contracts which incorporate the SHW, they must conform to the descriptions, specifications and limitations set out in the SHW.

Implementation

1.6 The Advice Note Annexes are factual lists of products which have met compliance with direction 57 of the TSRGD 2002 or have obtained Statutory Type Approval (in the case of road studs incorporating a steady or intermittent light source as described in direction 57(2) or (3) of TSRGD 2002), or which have passed approval/registration procedures at the date of publication. There are no special requirements for implementation. It is intended that the Advice Note should be regularly updated to allow for the inclusion of new products or the deletion of products which are found to be unsatisfactory or have been superseded.

2. PROCEDURE FOR INCLUSION IN LISTS

2.1 Any manufacturer, supplier or agent can apply at any time to have products which have evidence of compliance and certification or have received the appropriate approval/registration placed on the lists at Annexes A, B, C or D. The addresses to which applications should be made are given in Chapter 4 of this Advice Note.

2.2 SD 1 (MCHW 0.2.1) gives information on the type of approval/registration required for each product, reference to the relevant clause in the SHW, and details on information required together with the likely timescale for products to obtain such approval/registration.

2.3 Where approval/registration has been withdrawn from products owing to their failure to perform to the required standard, the products will be removed from the lists at the revision subsequent to the withdrawal. Enquiries may be made of the Overseeing Organisations to check that any approval/registration is current at the time of use. Similarly, enquiries can be made about any approval/registration that may have been granted subsequent to the last publication of the lists.

PAVEMENT MATERIALS

1. Concrete Pavement Repair Materials

(i) Techcrete Repair Materials:

There are two type of Techcrete repair materials available, Techcrete TBR for partial depth repairs and Techcrete R for thin bonded repairs. Copies of the specifications for installing these materials can be obtained from:

Roadtechs Europe Limited
The Airfield
Barondale Lane
Topcroft
Bungay
Suffolk
NR35 2BE

Tel. 01508 536360
Fax. 01508 536160
Email: info@roadtechs.net

However, before letting contracts to use this material, checks should be made that the specification is the same as that registered with the Highways Agency's Pavement Engineering Group.

WITHDRAWN

PAINTS AND SIMILAR PROTECTIVE COATINGS

Since 1 May 2005 a new scheme for the Paints and Similar Protective Coatings via the Highways Authorities' Product Approval Scheme (HAPAS) has been operated by the British Board of Agrément (BBA). This scheme replaces the Highways Agency's own scheme. Details of the HAPAS scheme are available from the BBA. Contact details are as follows:

British Board of Agrément
PO Box No 195
Bucknalls Lane
Garston
Watford
Herts
WD25 9BA

Tel: 01923 670844

As from 1 May 2005 only those Paints and Similar Protective Coatings products which have British Board of Agrément HAPAS Roads and Bridges certification are acceptable for installation.

Copies of British Board of Agrément HAPAS Roads and Bridges Certificates for those Paints and Similar Protective Coatings products that have gained approval can be downloaded from the BBA website:
www.bbacerts.co.uk
