These documents are Volumes 1 to 4 respectively of the Manual of Contract Documents for Highway Works (MCHW). The SHW shall be used on all contracts, the HCD shall be used for all relevant construction details and the Bills of Quantities for Highway Works shall be used on all contracts using one or more Bills of Quantities.
- 1.2 This Standard implements the above documents as they were published in December 2014 incorporating all amendments between March 1998 and December 2014. This Standard also introduces and implements the February 2016 amendments to the Specification for Highway Works and the Notes for Guidance on the Specification for Highway Works as listed in Annexes A and B. These and the amendments published between March 1998 and December 2014 are as listed in the Volume Contents pages, Volume 0, Section 0, Part 2.
- 1.3 This implementation standard replaces the existing implementation standard SD 1/14 Amendment No. 2 which is hereby withdrawn.

Implementation of Amendments

1.11 Contracts for which tenders are to be invited after 1st May 2016 shall incorporate by reference the amendments implemented by this Standard, except where the preparation of a contract has reached a stage at which in the opinion of the Overseeing Organisation use of the amendments would result in significant additional expense or delay progress.

1.12 A Schedule of Pages and Relevant Publication Dates relevant to SHW, HCD and MMHW is included in Volumes 1, 3 and 4 respectively.

2. DEPARTURES FROM STANDARD

- 2.1 All requirements contained in MCHW documents shall be considered to have the status of Standards. Thus for Trunk Road works (and all roads in Northern Ireland) any variation or waiving of a requirement contained within an MCHW document, other than permitted changes, shall be a Departure from Standard.

The SHW and HCD should be used as they stand wherever possible but when alterations to Clauses, Tables or Figures are considered necessary Departures from Standard are to be agreed with the Overseeing Organisation. Refer to GD 01 'Introduction to the Design Manual for Roads and Bridges' (DMRB 0.1.2) for details of the Overseeing Organisations' requirements regarding Departures from Standards. Where such alterations require changes to the MMHW these shall be agreed with the Overseeing Organisation.

Any such requests for Departures from Standards will need to be submitted to the Overseeing Organisation in good time. They will require justification and identification of the changes which will need to be prepared in accordance with the requirements identified in NfGSHW Series NG 000 for incorporation into the contract.

Under no circumstances should replacement pages be produced to incorporate site specific alterations.

- 3.2 Instructions for incorporating the amendments are contained in the published amendment packages. These instructions include a brief description of the amendments and instructions on page replacement and/or removal and/or new pages.
- 3.3 A revision to the Volume Contents pages, Volume 0, Section 0, Part 2, will be issued with each set of amendments.
- 3.4 The amendment to the SHW includes a revised Schedule of Pages and Relevant Publication Dates. (This schedule has previously been published as part of the NfGSHW, but is now contained in SHW Series 000).
- 3.5 Superseded text and drawings in the MCHW Volumes 1, 2, 3 and 4 shall be retained by document users:
- (i) for those schemes for which the Contract has already been awarded using contract documents incorporating by reference the superseded text; and
 - (ii) for new schemes for which specific approval has been given to use the superseded text under paragraph 1.11 above.
- In these cases, working copies of the MCHW should not have the new amendments incorporated. Project teams or administrators of individual contracts need to maintain complete sets of contract documentation for individual contracts and archive them as necessary for the specific contract.
- 3.6 Where working copies of the MCHW are maintained for use on new schemes not covered by the exceptions in paragraph 3.5 above, the superseded pages should be removed and replaced with amended pages (together with all new pages issued). The superseded pages should be archived as necessary.
- 3.7 When necessary the Overseeing Organisations may make interim amendments to MCHW using interim documents. These are published using the Overseeing Organisations' web sites. They give Overseeing Organisations' requirements and advice and have the same status as MCHW documents. Any such amendments to MCHW documents should be implemented in accordance with the instructions given in the individual interim document. They shall be incorporated into contract documents in accordance with the requirements identified in NfGSHW Series NG 000 using contract specific Appendices 0/1 and 0/2.
