

## #APPENDIX E

### TYPE APPROVAL/REGISTRATION

Approval Body: The Overseeing Organisations of England, Scotland and Wales

Types of work, goods or materials for which proprietary products are required to have type approval/registration are as follows:

Description	Code	Specification Clause
Safety fences and barriers	A	401
Thin wearing course system*	A**	942
Prefabricated temporary road marking materials	A	1212
Paint formulations*	R	1909
Concrete bridge deck waterproofing	R	2003 2005
Anchorage for metal parapets*	R	2203
Bridge deck expansion joints	R	2301
All materials for corrugated steel buried structures except protective coatings and paved invert systems	A	2501

Code Key:

A = Type approval

R = Registration

\*BBA/HAPAS Roads and Bridges Certification is to be introduced to replace type approval/registration of these products. Advice on the status of type approval/registration and BBA/HAPAS Certification should be obtained from the relevant Overseeing Organisation. Advice on products awarded BBA/HAPAS Certificates can be obtained from the British Board of Agrément (also see Appendix C).

\*\*Type approval for thin wearing course systems does not apply in Scotland. Such systems are evaluated on a contract specific basis.

# denotes alternative approval procedures apply for the Overseeing Organisation of Northern Ireland
