SECTION 3 ADVICE NOTES

PART 1

SA 1/01 - AMENDMENT NO. 5

**LISTS OF APPROVED/REGISTERED
PRODUCTS**

SUMMARY

This document lists products which have obtained Statutory Type Approval, Type Approval and Registration in order that they can be used in the construction of trunk roads.

INSTRUCTIONS FOR USE

1. Insert replacement pages listed on the Amendment Sheet (Amendment No. 5 - November 2004).
2. Remove the corresponding existing pages, which are superseded by this amendment and archive as appropriate. (Advice on archiving is given in Advice Note SA 4/01.)
3. Enter details of Amendment No. 5 dated November 2004 on the Registration of Amendments Sheet, sign and date to confirm that the amendment has been incorporated.
4. Archive this sheet as appropriate.

Note: A quarterly index with a full set of Volume Contents Pages is available separately from The Stationery Office Ltd.

AMENDMENT No 5 TO SA 1/01 – November 2004

Instruction Sheet

Section	Revision
Front Sheet	Replace with new Front Sheet
Contents Sheet	Replace with new Contents Sheet
Chapter 4	Replace pages 4/1 - 4/2 with new pages 4/1 - 4/2
Annex B - Contents	Replace existing Contents page with new Contents page
Annex B	Replace pages B/1 - B/14 with new pages B/1 - B/6
Annex C - Contents	Replace existing Contents page with new Contents page
Annex C	Replace pages C/1 - C/4, C9 - C/10, C/13 - C/20 with new pages C/1 - C/4, C9 - C/10, C/13 - C/28

Lists of Products

Annex A: Statutory Type Approval

Annex B: Type Approval

Annex C: Registration

1. INTRODUCTION

1.1 The Specification for Highway Works (SHW), which forms Volume 1 of the Manual of Contract Documents for Highway Works (MCHW 1), requires certain work, goods or materials (products) to have obtained Statutory Type Approval, Type Approval or Registration before they can be used in the construction of trunk roads including motorways. Annex A of SD 1 (MCHW 0.2.1) lists such products.

1.2 Statutory Type Approval is granted by the Secretary of State for the Overseeing Organisation while Type Approval/Registration is granted by the Overseeing Organisations. This Advice Note lists products which have obtained:

- a) Statutory Type Approval at Annex A (in Northern Ireland Type Approval applies in place of Statutory Type Approval);
- b) Type Approval at Annex B; and
- c) Registration at Annex C.

1.3 This Advice Note supersedes SA 1/98 which is hereby withdrawn.

1.4 Unless otherwise indicated in the lists at Annexes B and C, Type Approval/Registration granted by the Highways Agency as the Overseeing Organisation is valid throughout the UK.

1.5 It should be noted that the approval/registration of some products is subject to limitations on use. Where applicable these are stated in the lists. Such limitations are additional to any given in the SHW. When products are used in contracts which incorporate the SHW, they must conform to the descriptions, specifications and limitations set out in the SHW.

Implementation

1.6 The Advice Note Annexes are factual lists of products which have passed approval/registration procedures at the date of publication. There are no special requirements for implementation. It is intended that the Advice Note should be regularly updated to allow for the inclusion of new products or the deletion of products which are found to be unsatisfactory or have been superseded.

2. PROCEDURE FOR INCLUSION IN LISTS

2.1 Any manufacturer, supplier or agent can apply at any time to have products which have received the appropriate approval/registration placed on the lists at Annexes A, B or C. The addresses to which applications should be made are given in Chapter 4 of this Advice Note.

2.2 SD 1 (MCHW 0.2.1) gives information on the type of approval/registration required for each product, reference to the relevant clause in the SHW, and details on information required together with the likely timescale for products to obtain such approval/registration.

2.3 Where approval/registration has been withdrawn from products owing to their failure to perform to the required standard, the products will be removed from the lists at the revision subsequent to the withdrawal. Enquiries may be made of the Overseeing Organisations to check that any approval/registration is current at the time of use. Similarly, enquiries can be made about any approval/registration that may have been granted subsequent to the last publication of the lists.

PAVEMENT MATERIALS

1. Concrete Pavement Repair Materials

(i) Techcrete Repair Materials:

There are two type of Techcrete repair materials avialble, Techcrete TBR for partial depth repairs and Techcrete R for thin bonded repairs. Copies of the specifications for installing these materials can be obtained from:

Roadtechs Europe Limited
The Airfield
Barondale Lane
Topcroft
Bungay
Suffolk
NR35 2BE

Tel. 01508 536360
Fax. 01508 536160
Email: info@ropadtech.net

However, before letting contracts to use this material, checks should be made that the specification is the same as that registered with the Highways Agency's Pavement Engineering Group.

PARAPET ANCHORAGES

Since 1 April 1998 a new scheme for the parapet anchorages via the 'Highways Authorities Product Approval Scheme' (HAPAS) has been in operation by the British Board of Agrément (BBA). Details of the scheme are available from the BBA. Contact details are as follows:

British Board of Agrément
PO Box No 195
Bucknalls Lane
Garston
Watford
Herts
WD25 9BA
Tel: 01923 670844

As from 1 April 1999 only those products which have British Board of Agrément HAPAS Roads and Bridges certification are acceptable for installation.

BL02/06	M24 Nut
BL/30	3 Rope Layout (Central Reserve)
BL/31	3 Rope Layout (Verge)

Please check with the Promoter for the latest issue of the above drawings.

In addition, the safety fence shall comply with the manufacturer's Specification and component descriptions for the Brifen 3 Rope Wire Rope Safety Fence and with the manufacturer's Installation Standard. Copies of these documents can be obtained from the Promoter at the address listed on page C/22.

ASSET INTERNATIONAL VARIOGUARD SAFETY BARRIER

Approved Design:

Asset International Varioguard Safety Barrier

Containment Performance Class to BS EN 1317: N2

Working Width Class to BS EN 1317: W6

Asset International Varioguard Safety Barrier shall be in accordance with the following drawings:

VG2000	Terminal End Element (Without Pins) (Revision 'A')
VG2001(1)	Standard 4m Element
VG2001(2)	4m Element for Bridge Deck Fixing
VG2002(1)	Terminal End Element (With Pins)
VG2002(2)	Terminal End Element (Core Hole Fixing)
VG2003(3)	Terminal End Element (Driven Post)
VG2002(4)	Terminal End Element (Bridge Deck Fixing)
VG2003	Expansion Joint Element (Revision 'B')
VG2005	Sologuard Element (Type *B*) (Revision 'B')
VG2006	Sologuard Element (Type *A*) (Revision 'B')
VG2007	Sologuard Element (Type *C*) (Revision 'B')
VG2008	Transition (Verge Approach) (Revision 'C')
VG2009	Transition (Verge Depart) (Revision 'C')
VG2010	Transition (Central Reserve) (Revision 'C')
VG2011	Transition (Central Reserve with Lighting Columns) (Revision 'C')
VG2012	Sigma Post (Central Reserve) (Revision 'C')
VG2013	Rubbing Rail Assembly (Single Sided) (Revision 'A')
VG2014	Rubbing Rail (Double Sided) (Revision 'A')
VG2015	Rubbing Rail Clamp Plate (Revision 'A')
VG2016	Rubbing Rail Hanger Plate (Revision 'A')
VG2017	Rubbing Rail Hanger Clamp Plates (Revision 'A')
VG2018	Flared Rubbing Rail (2100mm LG) (Revision 'A')
VG2019	Rubbing Rail (6000mm LG) (Revision 'A')
VG2020	Rubbing Rail Spigot (Revision 'A')
VG2021	Rubbing Rail Support Strap (D.S.O.B.B. – Varioguard) (Revision A)
VG2022	Rubbing Rail Clamp Strap (D.S.O.B.B. – Varioguard) (Revision A)
VG2023	Flared Rubbing Rail (D.S.O.B.B. – Varioguard) (Revision 'A')
VG2024	Parapet Connection Bracket Type *A* (Revision 'A')
VG2025	Parapet Connection Bracket Type *B* (Revision 'A')
VG2026	Baseplate Details (Revision 'B')
VG2027	Bridge Fixing Detail (Revision 'A')

Drawing list continued on page C/25.

Asset International Varioguard Safety Barrier - *Drawing List continued:*

VG2028	Top Rail Fishplate (Revision 'B')
VG2029	Single Sided Standard 4m Element
VG2030	Single Sided Terminal End Element
VG2031	Hinged Varioguard Terminal for Sologuard
VG2032	Core Hole Fixing Socket and Post
VG2033	Driven Post Top and Bottom Sections
VG2034	30 Dia' Pin Details
VG2036	Side Connection Plate Details
VG2037	Base Connection Plate Details
VG2038	Standard 1.3m Element
VG2500	Layout for O.B.B – Varioguard (Verge Departure) (Revision 'B')
VG2501	Layout for O.B.B – Varioguard (Verge Approach) (Revision 'B')
VG2502	Layout for D.S.O.B.B – Varioguard (Central Reserve) (Revision 'B')
VG2503	Layout for Varioguard Protecting Work Zone (70mph) (Revision 'A')
VG2504	Varioguard Protecting Work Zone Details (Revision 'B')
VG2505	O.B.B.-Varioguard (Central Reserve) with Lighting Columns
VG2506	Temp' Varioguard for Work Zone Protection
VG2507	Varioguard/Sologuard Crossover Point Arrangement
VG2508	Varioguard/Sologuard Contraflow Arrangement
VG2509	Typical Connection Detail

Please check with the Promoter for the latest issue of the above drawings.

In addition, the safety barrier shall comply with the manufacturer's Specification and component descriptions for the Asset International Varioguard Safety Barrier and with the manufacturer's Installation Standard. Copies of these documents can be obtained from the Promoter at the following address:

MARSHALLS DELTA BLOC 80

Approved Design:

Marshalls Delta Bloc 80

Containment Performance Class to BS EN 1317: **N1**

Working Width Class to BS EN 1317: **W4**

Marshalls Delta Bloc 80 shall be in accordance with the following drawings:

DeltaBloc80/dwgschedule
DeltaBloc80/intermediatecomponent
DeltaBloc80/terminationcomponent
DeltaBloc80/couplingcomponent
DeltaBloc80/generalinstallationlayout

Please check with the Promoter for the latest issue of the above drawings.

In addition, the safety barrier shall comply with the manufacturer's Specification and component descriptions for Marshalls Delta Bloc 80 and with the manufacturer's Installation Standard. Copies of these documents can be obtained from the Promoter at the following address:

SISTEMA STEELGARD BARRIER

Approved Design:

Sistema Steelgard Barrier

Containment Performance Class to BS EN 1317: **H4a**

Working Width Class to BS EN 1317: **W5**

Sistema Steelgard Barrier shall be in accordance with the following drawings:

Sistema Drawing 18-05-A
Sistema Drawing 18-05-H
Sistema Transition Drawing 02B
Sistema Drawing L61-M1
Sistema Drawing L61-M2

Please check with the Promoter for the latest issue of the above drawings.

In addition, the safety barrier shall comply with the manufacturer's Specification and component descriptions for Sistema Steelgard Barrier and with the manufacturer's Installation Standard. Copies of these documents can be obtained from the Promoter at the following address:
